

First Responders and Fire Fighters—Virtual Field-trip—September 14, 2021—10:30 a.m.

First Responders and Fire Fighters provide a service to the community that protects you and me.

Today's presentation will give you an inside look at a team of first responders and fire fighters in a small rural community. Some of the things that you will see today will be the same for first responders and fire fighters in the larger centers.

Below are some things that you can be thinking about and answering as you watch the presentation.

Once you have come up with your answer to each of the questions, either write about it, draw a picture, put images in a word doc, etc. and send it to your teacher.

Your Listening Guide:

Listening Guide:

1. What did you learn that will help you to stay safe at home?
2. What did you find interesting? What did you find surprising?
3. How important do you think it is for everyone to have first aid skills? What are the most important ones to have?
4. How can knowing about first responding and firefighting help you to be a positive community member?
 - a. How do they work in your community? What can you do to help?
 - b. How is the well-being of self, family, community, and the environment enhanced by the first responders and fire fighters in your community?

Thank you for watching and learning 😊.
